

## **IT Security Solutions that meet compliancy requirements**

Government agencies know that their best line of defense for securing and protecting their vital information and information systems is a well-trained and aware user. That's why DoD Directive **8570.1** was put into place. **Per DoDD 8570.01-M, all IA professionals who establish policy or implement security measures and procedures for DoD and affiliated information systems and networks must be certified NLT 31 Dec 2010.**

**Based on ACC suspense you have to be 40% certified by 15 Nov 08.**

This enterprise-wide mandate requires that any personnel conducting Information Assurance (IA) functions be trained and certified in a commercial certification on the concepts, principles, and applications to enhance protection of the Department of Defense's (DoD) information, information systems, and networks.

**THESE COURSES ARE APPROVED FOR CHAPTER 31 MONTGOMERY GI-BILL BENEFITS!**

Working closely with other government agencies and the DoD, we have developed a complete training and certification solution that supports **8570.1** compliancy requirements. Our solution will ensure that your IA personnel performing IA functions obtain and maintain a certification corresponding to the highest level functions required by their position.

### **8570.1 Information Assurance Training**

**8570** provides guidance and procedures for the training, certification, and management of the DoD workforce conducting Information Assurance functions in assigned duty positions. It also provides guidance on reporting metrics.

The agencies affected by **8570** are:

- Office of the Secretary of Defense Military Departments
- Chairman of the Joint Chiefs of Staff
- Combatant Commands
- Office of the Inspector General of the DoD
- Defense Agencies
- All other organizational entities in the DoD

**Following are DoD Approved Baseline Certifications:**

IAT LEVEL 1	IAT LEVEL II	IAT LEVEL III
A+	GSEC	CISA
NETWORK+	SECURITY+	CISSP
SSCP	SCNP	GSE
